

## Documents

It is DTC's practice to make the majority of our latest manuals and user guides available to customers online, by using our WatchDox facility. To access this site please contact your Account Manager or send a request to [solent.support@domotactical.com](mailto:solent.support@domotactical.com)

You will then be sent a link where you can login and create your own password. You will then receive a confirmation email. Once you have done this you will then be able log into your account.

If you require any technical assistance please email Technical Support at [solent.support@domotactical.com](mailto:solent.support@domotactical.com)
